

Physical Network Topology

Multi-Vendor Carrier Ethernet Interoperability Event 2011

Device Types

- Provider/Provider Edge device
- Access device
- Aggregation device
- Analyzer/Traffic Generator
- Emulator
- Loopback device
- IEEE 1588v2 Grandmaster
- Layer2 encryption device
- Impairment tool
- Reference Clock
- Microwave radio system

Connection Types

- Clock link
- 1Gbit Ethernet link
- TDM link
- 100Gbit Ethernet link
- 10Gbit Ethernet link
- Bonded SHDSL link

Network Areas

- IP/MPLS network
- MPLS-TP network
- Ethernet Aggregation network
- Access network
- ERPS Rings
